

240—COMANCHE SPRING, POOL AND  
BATH HOUSE, FORT STOCKTON, TEXAS

For centuries the clear waters of Comanche Spring have been a gathering place in Western Texas, from the days of the tribes of Indians who gave it their name, and the time of the intrepid pioneers who forged the Chihuahua Trail and the Old Spanish Trail. Today it is a crystal clear, pure, free swimming pool, as shown—located just three blocks from downtown Fort Stockton. Its spring waters irrigate 6,000 acres of rich farm land, and here the annual Fort Stockton Water Carnival is held each June.
